

# IEEE CISOSE 2025

July 21 - 24, 2025

Tucson, Arizona, USA

## IEEE International Congress on Intelligent and Service-Oriented Systems Engineering 2025

July 21-24, 2025 - Tucson, Arizona, USA

### Call for Participation

IEEE CISOSE2025 is a prominent global congress on the subject of **intelligent service systems**. The event brings together academic researchers, industry leaders, technology providers, and solution providers to exchange research results, innovative ideas, and solutions for building future smart systems and applications using mobile and cloud technologies, AI, big data, and service engineering solutions.

Hear from keynote speakers on AI test automation, model quality validation, computer vision, and autonomous vehicles. Gain valuable insights and network with industry experts. **The congress features nine co-located IEEE events, all of which are open to attendees:**

**JCC:** 16th IEEE International Conference on Joint Cloud Computin

**SOSE:** 19th IEEE International Conference On Service-Oriented System Engineerin

**BigDataService:** 11th IEEE International Conference on Big Data Computing and Machine Learning

**IMC:** 13th IEEE International Conference on Intelligent Mobile Computing

**DAPPS:** 7th IEEE International Conference on Decentralized Applications and Infrastructures

**AI TEST:** 6th IEEE International Conference On Artificial Intelligence Testing

**ISADS:** 16th IEEE International Symposium on Autonomous Decentralized Systems

**FTS 2025:** 6th IEEE Future Technology Summit

**FITYR 2025:** 2nd IEEE International Workshop on Future Intelligent Technologies for Young Researchers
