

## About

MODELS is the premier conference series for model-based software and systems engineering. Since 1998, MODELS has covered all aspects of modeling, from languages and methods, to tools and applications. Attendees of MODELS come from diverse backgrounds, including researchers, academics, engineers and industrial professionals.

MODELS 2021 is a forum for participants to exchange cutting-edge research results and innovative practical experiences around modeling and model-based software and systems.

## Keynotes

Atsuyuki Morishima  
University of Tsukuba

Justyna Zander  
NVIDIA

Alexander Pretschner  
Technical University of  
Munich

## Tracks

Technical Papers  
Industry Days  
Artifact Evaluation  
Educators Symposium  
Tools & Demonstrations  
Posters  
Workshops

Tutorials  
Doctoral Symposium  
ACM Student Research Competition  
Keynotes  
Panel  
Awards  
SAM Conference
