

October 23–28, 2022
Montréal, Canada

About

ACM/IEEE 25th International Conference on Model Driven Engineering Languages and Systems is the premier conference for model-driven software and systems engineering. This year’s edition will provide an opportunity for the community to further advance the foundations of modeling, and come up with innovative applications of modeling in emerging areas of cyber-physical systems, embedded systems, socio-technical systems, big data, machine learning, and sustainability.

Keynotes

Pieter Mosterman
*Cyber-physical system
 opportunity for AI assistance*

Danny Tarlow
*Machine learning for
 generating programs*

Abdo Shabah
*Computing to protect
 human lives*

Dates

Workshop proposals	25 March 2022
Abstracts tech. papers	11 May 2022
Technical papers	18 May 2022
ACM SRC	29 May 2022
Doctoral symposium	20 July 2022
Educators symposium	20 July 2022
Tools & Demonstrations	20 July 2022
Posters	20 July 2022

Theme

Modeling for social good
#MDE4SG
