MODELS 22
MONTRÉAL

About

ACM/IEEE 25th International Conference on Model Driven Engineering Languages and Systems is the premier conference for model-driven software and systems engineering. This year's edition will provide an opportunity for the community to further advance the foundations of modeling, and come up with innovative applications of modeling in emerging areas of cyber-physical systems, embedded systems, socio-technical systems, big data, machine learning, and sustainability.

Keynotes

Akshay Rajhans
Cyber-physical system opportunity for AI assistance

Danny Tarlow
Assisting software eng. with deep learning

Maria Angela Ferrario
Responsible software eng. and social good

Dates

Workshop proposals	1 April 2022
Abstracts tech. papers	11 May 2022
Technical papers	18 May 2022
ACM SRC	29 May 2022
Doctoral symposium	20 July 2022
Tools & Demonstrations	20 July 2022
Posters	20 July 2022
Educators symposium	22 July 2022

Theme

Modeling for social good
#MDE4SG

Hosted by

Université de Montréal
