are required

Julius P. Kumquat The Kumquat Consortium New York, USA jpkumquat@consortium.net

and relevance to the SIGCSE community. Also, you can add some references like this [2] one. Here is another reference [1]

The section following the summary should explain the panel struc-

ture and plan for audience participation, and provide sufficient time

ABSTRACT

Should provide a brief summary (up to 250 words) of your panel. A clear and well-documented LATEX document is presented as an article formatted for publication by ACM in a conference proceedings or journal publication. Based on the "acmart" document class, this article presents and explains many of the common variations, as well as many of the formatting elements an author may use in the preparation of the documentation of their v CCS Concepts

CCS CONCEPTS

• Computer systems organization → Embedded systems; Redundancy; Robotics; • Networks -Keywords are

required

KEYWORDS

datasets, neural networks, gaze detection, text tagging

ACM Reference Format:

SUMMARY

Ben Trovato, G.K.M. 7 Patel. **ACM Reference Format. Leave** Huifen Charles 8. The Name of SIGESE TS I this placeholder, if accepted, correct ı 'XX). conference title from yo this text will be replaced. ACM, New York, NY, XXX

The first section should be titled Summary and should provide

an expanded summary of the panel's goals, intended audience,

3 POSITIONS STATEMENTS

for audience interaction and questions.

2 PANEL STRUCTURE

The position statements of each panelist and a brief description of their expertise and background as it relates to the panel. Title each subsection by identifying the panelist name.

ACKNOWLEDGMENTS

This section is optional, i.e., it is NOT required.
